PROJECT

User Behavior Analysis for Animals Product E-commerce Website

- Analyzed user behavior data from an animal products e-commerce site using Google Analytics and SQL to identify key drop-off points in the sales funnel.
- Provided actionable insights that improved product page engagement by 15%.
- Created interactive dashboards to track user activity and sales trends, supporting data-driven marketing decisions.

EDUCATION

Technical SEE

Mohan Kanya Secondary School • Palpa • 2018 • 3.56

- Completed a 2-year technical program including 3 months of On-the-Job Training (OJT)
- Studied Computer Networks: fundamentals of networking, protocols, and troubleshooting
- Learned Database Management Systems (DBMS): SQL basics, data modeling, and management
- Gained practical knowledge of Computer Maintenance and Hardware troubleshooting
- Covered Object-Oriented Programming (OOP) concepts and application development
- Explored Electronic Devices and Circuits (EDC) fundamentals and their applications

Bachelor in Computer Engineering

Institute of Engineering, IOE • Lalitpur

- Pursuing Bachelor in Computer Engineering (*Institute of Engineering*) – Expected Graduation: 2026
- Core subjects include: Data Structures, Algorithms, Software Engineering, Database Systems, Computer Networks, and Project Management.

CERTIFICATIONS

Scrum Master Certification

Vipesh Singla, MBA, Certified SAFe Agile Coach, UDEMY • 2025

- Shows understanding of Agile project delivery
- Demonstrates leadership and collaboration potential
- Adds credibility for roles in tech, QA, support, or product teams
- Useful even for internships or junior roles in IT teams

Executive Presence: Foundations of Confident Leadership

MTF Institute of Management, Technology and Finance, UDEMY • 2025

- Enhances soft skills critical for teamwork and client-facing roles
- Shows initiative to grow as a confident communicator and future leader
- Complement technical abilities with professional presence

COURSEWORK

Project Management

Institute of Engineering • 2025 • Project Planning and Scheduling, Time Management and Prioritization

- Led end-to-end planning and execution of the third year project, managing scope, timeline, and key deliverables
- Coordinated a cross-functional team to ensure timely completion, applying real-world project management principles
- Identified risks early and implemented mitigation strategies to keep the project on track and within scope

SKILLS

- SQL (MySQL), Excel (pivot tables, lookups, modeling), Google Analytics
 - Data Visualization using Tableau and Power BI
 - A/B Testing and data-driven decision making
 - Product Lifecycle knowledge and basic Wireframing
 - Agile/Scrum methodologies; tools: Jira, Trello
 - Cross-functional Collaboration and insight communication, Git
-
