## PROJECT

### User Behavior Analysis for Animals Product E-commerce Website

- Conducted in-depth testing and analysis of user interactions on the e-commerce site, using SQL and Google Analytics to identify bottlenecks in the sales funnel. This systematic approach uncovered critical usability issues that were causing high drop-off rates.
- Designed and executed test cases to validate page performance and navigation flow, ensuring the accuracy of insights and data integrity during analysis.
- Delivered actionable feedback to the development and marketing teams, resulting in a 15% increase in product page engagement and setting a framework for ongoing usability testing.
- Built interactive dashboards in Tableau and Power BI that automated tracking of user behavior, leaving a lasting impact by enabling continuous monitoring and faster bug/issue identification for future product iterations.

## EDUCATION

### Bachelor in Computer Engineering

Institute of Engineering, IOE • Lalitpur • Expected Graduation: 2026

- Core subjects include: Data Structures, Algorithms, Software Engineering, Database Systems, Computer Networks, and Project Management.

### Technical SEE

Mohan Kanya Secondary School • Palpa • 2018 • 3.56 GPA

- Completed a 2-year technical program including 3 months of On-the-Job Training (OJT).
- Studied Computer Networks, Database Management Systems (DBMS), Computer Maintenance, OOP, and Electronic Devices & Circuits (EDC).

## CERTIFICATIONS

### Scrum Master Certification

Udemy • 2025

### Executive Presence: Foundations of Confident Leadership

UDEMY • 2025

## COURSEWORK

### Project Management (Third-Year Project)

- Led a cross-functional team to plan, schedule, and execute the semester project, applying Agile principles and QA practices to monitor quality at each stage of delivery.
- Created structured test plans and risk assessments, identifying potential system issues early and implementing mitigation strategies to keep the project on track.
- Facilitated sprint reviews and retrospectives, ensuring consistent feedback loops and alignment with project goals, laying the foundation for a collaborative and quality driven development process.

## SKILLS

**Testing & QA:** Manual Testing, Test Case Creation, Bug Tracking (Jira, Trello), A/B Testing.

**Tools & Tech:** SQL (MySQL), Excel (pivot tables, lookups), Google Analytics, Tableau, Power BI, Git.

**Agile Methodologies:** Scrum Master Certified; familiar with sprints, stand-ups, retrospectives.

**Collaboration:** Strong communication skills for documenting bugs, presenting test results, and working with cross-functional teams.
